

Agile (glossary)

From SEBoK

agile

(1) Response ability state marked by high competence at both proactive and reactive change. (Dove 2001, 69)

(2) Project execution methods can be described on a continuum from “adaptive” to “predictive.” Agile methods exist on the “adaptive” side of this continuum, which is not the same as saying that agile methods are “unplanned” or “undisciplined.” (INCOSE 2011, 40, 183)
