

Architecting (glossary)

From SEBoK
architecting

(1) *Process of conceiving, defining, expressing, documenting, communicating, certifying proper implementation of, maintaining and improving an architecture throughout a system's life cycle* (ISO/IEC/IEEE 2011)

(2) *The architecting process sometime involves the use of heuristics to establish the form of architectural options before quantitative analyses can be applied. Heuristics are design principles learned from experience.* (Rechtin 1990)
