

# Interoperability (glossary)

---

interoperability

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

(1) *Degree to which two or more systems, products or components can exchange information and use the information that has been exchanged. (ISO/IEC 2009)*

(2) *The ability for two or more ORBs to cooperate to deliver requests to the proper object. (ISO/IEC 2003)*

(3) *The capability to communicate, execute programs, and transfer data among various functional units in a manner that requires the user to have little or no knowledge of the unique characteristics of those units. (ISO/IEC 1993)*
