Introduction to the SEBoK

The SEBoK provides a widely accepted, community-based, and regularly updated baseline of systems engineering (SE) knowledge. Therefore, it is a curated body of knowledge which is updated on a semi-annual basis. This baseline strengthens the mutual understanding across the many disciplines involved in developing and operating systems.

Topics

Each part of the SEBoK is divided into KAs (knowledge areas), which are groupings of information with a related theme. The KAs are divided into topics. This KA contains the following topics:

- Scope of the SEBoK
- Structure of the SEBoK
